schoolstream

Dear Parents/Carers,

The key to successful collaboration between schools and parents is undoubtedly communication. We are excited to announce that our school has a new school app – School Stream. This is an app for iPhone, Android and iPad mobile devices.

School Stream will enable our school to send out important notifications to our community at a much faster rate all at the convenience of your mobile device. Newsletters, notes and school events will be uploaded, reminders sent through, as well as information of your child's grade/stage when at school or attending excursions.

School Stream is a very safe and organised system and is also a one stop source of information. All social media apps – Facebook, Instagram, Twitter and the school Website can now be viewed through this app.

We encourage you to read the instructions overleaf and download the app. Spend the time to look through the app features. We are certain that your child will be able to assist you in this process!

School Stream also offers a special translation feature so you can receive all notifications in your chosen language. To add this feature go into your setting and then activate Language Transition to choose your preferred language.

We look forward to providing you with the most up to date information on your child's education.

Kind Regards,

Bert Lo Campo   Cindy Maruncic
Principal   **Deputy Principal**
