

20 May 2019

**NOTIFICATION OF BRAINS MATTER INCURSION**

This year as part of our Stage 3 PDHPE program and wellbeing initiative we have invited Paramedics from NSW Ambulance Service to deliver an interactive program about the importance of the brain and how easily it can be damaged from not wearing a helmet. The program will cover the following topics:

- A personal story about a push bike accident and sustaining a traumatic brain injury.
- Thorough understanding of helmets, how to wear them correctly and the importance of using a helmet which meets Australian Standards.

There will be real life images of the main presenter's accident which can be found on the website <http://brainsmatter.com.au/>  
Please take some time to view the website.

**Where:** Quakers Hill Public School Hall

**When:** Tuesday 4 June 11.55am – 12.55pm

**Cost:** NIL

Please complete the section below and return it to your child's class teacher by Wednesday 29 May 2019.

Bert Lo Campo  
**Principal**

Shannon Brehony
