

17 October 2023

Dear parents/carers,

You are invited to attend our school community event, STEAM Symposium.

Our K-6 classes will be showcasing their amazing STEAM (Science, Technology, Engineering, Arts and Maths) projects that they have been working on throughout 2023.

Each class will be represented on the day with their own stall, which will be run by students who will be ready to share their knowledge and clever designs with the community.

We would love you to join us and share in the fun!

Bert Lo Campo
Principal

Aisha Masud
Event Coordinator
