26 October 2023

WORLD TEACHERS' DAY 2023

World Teachers' Day 2023 will be celebrated across Australia on Friday 27 October 2023. World Teachers' Day is an opportunity to show appreciation and say thank you for the incredible contributions our teachers make. At Quakers Hill Public School, we are lucky to have an exceptional group of teachers working in our classrooms.

You're invited to join the senior executive team in celebrating our teachers' dedication and hard work in educating, inspiring and supporting our students. On Friday, all students are encouraged to wear a hat of choice to school and share with their teachers what they have enjoyed most about the school year. Other ways to celebrate our teachers include, sending a heartfelt message, making a card with your child, or creating a fun "Hats off" GIF at <https://worldteachersday.edu.au/#photo-booth> to share with your teacher on Seesaw.
